CAREER SUMMARY

ABOUT ME: To be honest, IT came into my life in recent 2 or 3 years. One of the reasons is my curiosity and creativity. Seeking to leverage solid technical skills and abilities to advance my career as young developer. Highly organized, self-motivated and proficient with computers. I like to work in a team and I want to respect each other.

PROFESSIONAL EXPERIENCE

Musait Technologigies
QA and Backend(GO)

May 2024 -

Well, this is an IT consulting company and the main objective of our company is to provide IT solutions for business. I worked in this company with manual testing of management, warehouse, finance automation. So my last project was Telegram bot in GO for HR of our company, and i use docker container and CI/CD implementation on this project. db was boltodb and Google sheet intergation as well.

TrastPay
manual tester

Dec 2023 - March 2024

This is the Trustbank banking app with more features, it is a [TrastPay](#). This is a new Project and most of time we always manual test P2P section of app, because P2P is important section than other features. And all bugs reported and uploaded Jira bug tracking system. Also, we was working on automation testng using combination Python language and Appium

Cargo MAX LLC
tester

Sep 2023 - Nov 2023

It was my first manual testing practice, Project was [ELD](#) platform for American truck drivers. I worked there are as a Tester and it was not big project. I tested more time new functions to regression test and functional test. The main communication was on Telegram and I explained bugs through that
